

Waqar Ahmed

Wordpress Frontend Developer

ABOUT ME

As an experienced Wordpress, Frontend Developer, I have a strong command of modern web UI frameworks, particularly Bootstrap, and possess the skills to convert PSD/AI/XD designs into pixel-perfect websites using HTML, CSS, and JavaScript. I am highly proficient in writing clean and maintainable code while adhering to coding guidelines. Additionally, I have a deep understanding of responsive design principles and mobile-first development, enabling me to create websites that are visually appealing and optimized for performance and cross-browser compatibility.

I can handle the Wordpress from the development to deployment. Experienced in server management and cpanel handling. I can also perform SEO Website optimization audits and QA as well.
